WIRELESS TELECOMMUNICATIONS BUREAU REMINDS CELLULAR LICENSEES OF OBLIGATION TO UPDATE SID INFORMATION WITH IFAST

In 2002, the Federal Communications Commission (Commission) eliminated the rule¹ that provided for Commission assignment of system identification numbers (SIDs) to systems in the 800 MHz Cellular Service (Cellular), instead opting to privatize the administration of Cellular SIDs.² On September 30, 2003, the Commission ceased maintaining the record of SID assignments, and on October 1, 2003, the Commission transferred the administration of SIDs to the private industry.³ Although the Commission initially assigned SID administration to six organizations,⁴ the International Forum on ANSI-41 Standard Technology (IFAST) currently is the sole administrator of U.S. SIDs.⁵

In privatizing SID administration, the Wireless Telecommunication Bureau (Bureau) issued Guidelines for Cellular SID Administrators⁶ to which both administrators of SIDs and Commission licensees must adhere.⁷ Section 6.1 of the Guidelines requires that “[Commission] licensees requesting or utilizing a Cellular SID assignment . . . keep administrative information current with an administrator.”⁸ The Bureau also emphasized that “SIDs are a finite resource [that] must be carefully managed” and directed Cellular licensees to report any discrepancies in SID information to the SID administrator, including instances when a SID has been assigned but is not currently being used.⁹

¹ See Year 2000 Biennial Regulatory Review-Amendment of Part 22 of Commission's Rules to Modify or Eliminate Outdated Rules Affecting the Cellular Radiotelephone Service & Other Commercial Mobile Radio Services, *Report and Order*, 17 FCC Rcd. 18401, 18429-30 ¶ 54-56 (2002) (*SIDs Report and Order*). See also <https://www.fcc.gov/encyclopedia/cellular-system-identification-number-sid-administrators>.

² SIDs are numeric identifiers used by Cellular and other wireless services to identify the home system and the roaming status for wireless devices; SIDs are also used for billing purposes. See *id.* at 18429 ¶ 52. The Commission began assigning SIDs in the early 1980s at the request of the Electronics Industry Association (EIA). *Id.*

⁹ *SIDs Privatization PN*, 18 FCC Rcd. 19800 at 19801.

IFAST has provided the Bureau with a list of 769 SIDs that it believes are no longer in use, along with the name of the former assignee, as listed in Attachment 1 of this *Public Notice*. These codes are being prepared for release to the free pool and subsequent reassignment. Prior to reassignment, IFAST wants to ensure that the SID codes are not currently in use by an authorized wireless service provider. The Bureau therefore reminds Cellular licensees of their obligation to report any change in SID usage or discrepancies to IFAST and encourages all licensees to review the SIDs listed in Attachment 1 and inform IFAST within (60) days of this *Public Notice* if any of the listed SIDs remain in use. Failure to do so may result in IFAST reassigning an operational SID code. We also advise all licensees to perform internal audits to confirm their SID usage and report this information to IFAST to assist in the identification of unused SIDs. Licensees may also conduct a search using <http://ifast.org/nationalsid.php>. For further information, contact Adnan Basrai at (202) 418-0096 or Ed Hall of IFAST at (410) 340-7892 or by e-mail at ifastsec@ifastltd.org.

Action by the Chief, Mobility Division, Wireless Telecommunications Bureau.
