WIRELESS TELECOMMUNICATIONS BUREAU RELEASES IMPAIRMENT FILE FORMATS FOR FORWARD AUCTION

GN Docket No. 12-268

The Wireless Telecommunications Bureau today releases specifications for impairment file formats. The Commission has determined that qualified bidders in the forward auction (Auction 1002) will have access to detailed impairment information upon receipt of their registration materials.¹ The attached specifications set forth the file formats in which this information will be made available to qualified bidders. We release specifications for impairment file formats now in order to enable prospective forward auction bidders to begin familiarizing themselves with the auction process.² We plan to release specifications for forward auction bidding data file formats shortly.

The attached specifications include, for each data file, an overall description of the file, the data fields that are included (with definitions of the data elements in each field), the data type, and notes or examples. Sample data is provided at the end of each file. We emphasize that the specifications we release today include sample data only; they do not reflect the actual impairment information that will be made available to qualified bidders during the auction.

For further information, contact at Sasha Javid at (202) 418-2392 or Sasha.Javid@fcc.gov or Barbara Pavon at (202) 418-2344 or Barbara.Pavon@fcc.gov.³

¹ *Broadcast Auction Scheduled to Begin March 29, 2016; Procedures for Competitive Bidding in Auction 1000, Including Initial Clearing Target Determination, Qualifying to Bid, and Bidding in Auctions 1001 (Reverse) and 1002 (Forward)*, AU Docket No. 14-252, GN Docket No. 12-268, WT Docket No. 12-269, MB Docket No. 15-146, Public Notice, 30 FCC Rcd 8975, [[]] para. 134 (2015).

² The impairment file formats we release today are subject to minor modifications as auction software is finalized.
